

Survey Questions		Analysis Calculations	Expected Players
A	My expectation is to play routinely every Monday.	13	Mondays
B	My expectation is to play Mondays at least half of the time.	8	Projection calculation:
C	I will probably play Mondays only every so often.	12	$A + 50\%(B) + 10\%(C) =$
	Will not play Mondays at all	1	18.2
	total responses	34	
D	My expectation is to play routinely every Thursday.	4	Thursdays
E	My expectation is to play Thursdays at least half of the time.	10	Projection calculation:
F	I will probably play Thursdays only every so often.	14	$D + 50\%(E) + 10\%(F) =$
	Will not play Thursdays at all	6	10.4
	total responses	34	
G	My expectation is to play routinely every Monday and Thursday.	5	Both Days
H	My expectation is to play Monday and Thursdays at least half of the time.	3	Projection calculation:
I	I will probably play Monday and Thursdays only every so often.	12	$G + 50\%(H) + 10\%(I) =$
	I do not envision playing both Monday and Thursday	14	7.7
	total responses	34
